WEDNESDAY EVE'G, JAN. 18, 1922.

FUNDS FOR PLAYGROUNDS.

City Council has evinced a friendly attitude toward the playgrounds but because of the very urgent necessity to keep the budget within the limits or the available funds during the current year, the appropriation for main taining the grounds will have to be

This condition will place upon the Weman's Culture Clob, as sponsor for the playgrounds, the burden of pro-viding funds to augment whatever appropriation council will find it poswhile to make. Having proviously demonstrated its ability in the line of money raising there is little doubt about this organization being able to me et the present situation. To be tertainment. required to do so may seem to be a trifle unfair, because of the work al-ready done in behalf of the playgrounds, but there seems to be no right time oftener than twice in 24 often alternative in view of the hard hours. fact council faces in preparing its

Councilman Stone has intimated that a plan may be worked out where-by some money may be raised for the playgrounds independent of an as propriation, or in the event that ore cannot be made. If this proposition materializes, as it very probably will, the burden the Weman's Culture Cub will have to assume will be propertionately lightened.

The suggestion has been made that

it might be further lightened if the schedule of salaries and other ex-penses incident to the management of the grounds be pured to conform n ore closely to the conditions of the readjustment period. To many per sons not conversant with playground nanagement it appears that the cost ist year, which is reported to have been \$3,700, was rather high. The treasury of the Weman's Culture Club, hence the public may feel it out of place to object to the cost inasnuch as it was expended in behalf of all the children of the city, but it does appear to those who have given some thought to the present situation that the scale of expenditures might to reduced without seriously impair-

lag the efficiency of the work.

The Woman's Culture Club has disphayed a commendable public spirit in many directions and can be de-pended upon to continue to do so without abatement of its zeal in be-ualf of those things which appeal to its members as worthy objects of their interest and support. The play-grounds is essentially one of these objects. Except for the persistence and cure their establishment it is highly probable the experiment would never have been tried. Much credit is due the club and, incidentally, there is a willing, in emergencies like the pres-surance phone 760. YOU WANT INemt, to assume responsibility for the WANTED — GIRLS continued existence of this recreation feature.

There is also the feeling that the club will appreciate the circumstances by which City Council is faced, and while regretting that all the financial aid expected from this source cannot be supplied, the club will live up to its reputation as a resourceful or-ganization and, with the aid the put-tic has always shown a willingness Ranization and, with the aid the public has always shown a willingness to give, bridge the gap until the manilelpality is better circumstanced finan at this time to do what members of council ago disposed but find themselves unable to do.

This is the plan that we have arranged with the Colonial National Bank. They take a January calendar and mark one date, Sunday's excluded, with a cross as Illustrated:

It may be the first day of the month that is marked, or it may be the last, or anywhere between, so it will pay to start early and scatter your purchases over the entire month.

This January calendar is placed in an envelope and scaled by the Cashier, and kept by the Colonial National Bank. On the first day of February this envelope will be opened by an officer of the bank in the presence of responsible witnesses and the date marked will he announced in this paper.

No one but the bank officer will know the date. This means to everyone who bought goods from us on that date, and paid for them in cash, we will refund every dollar at purchase price. It makes no difference how many people, where they are from or how much your purchases, it all goes,
